CHEMICAL RESISTANCE ANTI CORROSION PAINT

Protection Against Corrosion In 15-Minutes
Fast Drying & Long Lasting Solution

Single
Compound

Alkali &
Acid Resistance

Exterior
Durability

Self
Primer

Introduction:

Our Patented product, Chemical Resistant Anti Corrosion Paint (CRAC) offers unmatched protection in the aggressive environments combining the ease of a Single Component system with a fast 15 minutes touch drying time & engineered for corrosive areas like all metal structures, Roof sheets, Cable trays, Machineries & Equipments. This innovative self priming solution forms a robust barrier against alkali and acid exposures.

Application:

- Plant Structures & Roof Sheets (Chemical & Fertilizer Plants)
- Corrosive Environments (ARP & Pickling line)
- Industrial Equipments & Machines (Ports, Steel Plants etc.)
